

Filetypes to Ignore

Free Pascal & Lazarus

Item	Purpose	Notes
.DS_Store	macOS junk file	Safe to ignore
Thumbs.db	Windows thumbnail cache	Safe to ignore
backup/	Lazarus backup folder	Volatile, user-specific
lib/	FPC build artefacts	Contains .ppu , .o , etc.
units/	FPC unit output	Platform-specific
*.lps	Lazarus session file	Should be ignored
*.lpk	Lazarus package metadata	Usually committed; defines packages
*.ppu	Compiled Pascal unit	Auto-generated
*.o	Object file	Auto-generated
*.or	Lazarus backup	Volatile
*.rst	Lazarus resource strings	Auto-generated
*.compiled	Lazarus build marker	Auto-generated
bin/	Build output	Platform-specific
build/	Build output	Platform-specific
out/	Build output	Platform-specific
*.a	Static library	Build output
*.app	macOS app bundle	Build output
*.rsm	Debug symbol map	Build output

*.log	Log file	Junk
*.tmp	Temp file	Junk
*.bak	Backup file	Junk

Delphi Files

Item	Purpose	Notes
__history/	Delphi history	IDE junk
__recovery/	Delphi recovery	IDE junk
*.dproj.local	Local project settings	User-specific
*.identcache	Symbol cache	Auto-generated
*.local	Local settings	User-specific
*.dcu	Compiled unit	Auto-generated
*.dcp	Package file	Auto-generated
*.dcpil	Package IL	Auto-generated
*.bpl	Package binary	Build output
*.bpi	Package info	Build output
*.drc	Resource compiler output	Build output
*.map	Map file	Build output

Other Files

*.exe	Executable	Build output
*.dll	Windows library	Build output

***.so**

Linux library

Build output

***.res**

Resource file

Build output
